

You can hang the A Stance Message Project designs prepared in sticker format in places worthy of our project, such as avenues, alleys, free billboards, tradesmen's windows, school surroundings and canteens, minibus-bus stops, and marketplaces in your city.

We kindly ask you to share the areas you work in and the relevant images with the hashtags #AStanceMessage with our @birduruscomtr accounts.

You can send the original files of the studies to birdurus@gmail.com via e-mail or we transfer.
